If Bayar is constituted into a municipality the inchabitants will have to be made over to the municipal Board & the Dr Com^rs may be asked to mention the amount of inchabitants before final orders are issued. With regard to the Sanitation of municipalities I beg to submit an excellent little regulation* which with very slight alterations may be introduced into mysore with great advantage to the rural parts. The Sale of lands by public auction without exception is a matter for consideration in the Revenue Dept. though I think, with the Dr Com^rs the time has come to knock down the distinction between the A & B lists.

Bagur has a population of 7487. A municipality may be sanctioned for the place. Incidentally the Dy Com^r touches upon the insufficiency of the funds for even ordinary purposes, the check given to progress of vaccination by the withdrawal of the G. H. General Grants, the advisability of selling all waste lands by public auction, the handing over of the village tax on village-sites & house-tax to D^t Bd. Boards to be spent on villages having a population of 500 houses or a population of 2000

No. 711/428 Enc: 1

Deputy Commissioner's Office
Chilaw Division
Dated 4th March 1896.

To

The Secretary to the
Government of Ceylon
Revenue and General Departments

Sir, I have the honor to submit for the orders of Government a petition from the inhabitants of Bayiya in the Hosadeniya Sub Yaboork praying for the establishment of a Municipality in that village.

2. The village contains 206 houses and its population numbered 1487 at the last Khanesumari. It is a tolerably big village but not large enough to require a regular Municipal institution.

3. A sum of Rs: 534-12-9 was spent last year in carrying out some Sanitary works in the village such as opening out roads, constructing Culverts &c. A much larger sum however must be spent before the work taken on hand can be said to have been completed. Funds are not available for this work in the ordinary District Fund Budget and Government have in Proceedings No

No. 5165-73/L.7.61.95 dated 22. November 1895 declined to make grants from Local Funds General for new works.

4. It was not in Bagin alone that Sanitary works of this nature have been started and are at a stand still owing to want of funds. It is the same case with a number of other large villages, not to speak of drinking water Wells proposed to be dug for small villages, which though works of very urgent necessity have to be given up for want of funds.

5. I therefore beg to propose that in the larger villages of this District for example, in villages containing over 50 houses or 200 inhabitants, a house tax be levied for local purposes on all houses without making any exemption in favor of any class of persons. It may eventually be found advisable to extend the measure to all villages, but for the present only the larger villages may thus be dealt with. The house tax now levied in those villages as Mohatarfa will merge in this tax. If Government are prepared to give away the present realizations under that head, the whole will be credited to District Funds, and be administered by the District Funds Board of the District the amount realized being spent for the

Sanitary improvement of villages is not to be indefinitely postponed, there is, at any rate, so far as this District is concerned, no other alternative but to have recourse to this measure.

8. In case the suggestion is approved of, the transfer of the amount now realized as tax on unbuilt-back-yards, and credited to Land Revenue to District Funds, as suggested in my letter No. 367/115 dated 12th November 1895 will, I beg to submit, follow as a matter of course, in regard to villages affected by this measure.

9. The matter is one of urgent necessity for this District where the realizations from District Funds are inadequate even to meet calls ordinarily made upon those funds and I therefore earnestly beg that Government will take the matter into favourable consideration.

I have the honor to be
Sir,
Your most obedient servant
